

## MILO Range Training Systems Partners with AMTS

### *New Partnership Supports MILO's Expanding Market*

**FOR IMMEDIATE RELEASE – Ann Arbor, MI – July 2016**

American Mobile Training Solutions LLC is a veteran-owned small business specializing in threat detection and active conflict training courses. They have recently contracted with MILO Range to start offering system operator training to MILO's rapidly expanding customer base.

"The partnership is a natural fit," said Joy Creasy, MILO Range Military and Federal Program Manager. "Like us, they're veterans and former police officers so they understand our customer and how to meet their training needs."

They have been MILO end-users for three years, conducting training for their customers on a MILO Range Pro system of their own. "We're excited to develop this relationship with MILO," said Ryan Shields, President of AMTS. "It's a high-quality product and a group of like-minded people that share our philosophy of care and concern for the public."

"Our customers have come to expect top-notch service from the entire MILO Team, and we trust AMTS to deliver that on our behalf," said Robert McCue, General Manager for MILO Range. "We partnered with them because they've demonstrated the same high standards and attention to detail in training that we pride ourselves on."
